registration and allocation of a childcare place.

If your child is already registered, he or she can generally keep the place in his or her daycare center in the following kindergarten years. However, if you require an extended period of childcare, you must register for this each year and provide evidence of your requirements annually.

The kindergarten year always begins on August 1st and ends on July 31st of the following year. Children can also enter and leave the daycare center during the course of the kindergarten year.

Early childhood education in kindergarten enables children to play together with other children and offers them a variety of learning opportunities. Parents receive tips on the development of their children and can exchange ideas with other parents. The quality of the services is monitored by the Bremen State Youth Welfare Office (operating license for daycare facilities). There are regular training courses for the specialists.

The quality standards for early childhood education applicable to kindergartens in Bremen and Bremerhaven are described in the framework plan for education and upbringing in the elementary sector.
